

## **PARENTS: ARE YOUR CHILDREN AT RISK ON THE INTERNET?**

Are you worried about?

- How much time your children are spending on the Internet.
- What sites your children are visiting on the Internet.
- What your children are saying in chat rooms like MSN, Yahoo, Facebook, MySpace.
- Cyber-Bullying.

## **KidsWatch keeps Parents Informed- Automatically.**

### **Award Winning, Top-Rated Parental Control Software Solution.**

**KidsWatch™** parental control software is your fastest and easiest solution to safeguard your children's Internet experience and maximize the efficiency of the time they spend on the computer. Parents can set computer usage time limits, by child; ensuring homework is a priority over:

- *Internet chats, including Instant Messaging.*
- *YouTube, FaceBook and MySpace Web Visits.*
- *Online Gaming, Gaming Software Downloads, Music Downloads, and more.*
- *Awards: iParenting Media Award; Top 10 Reviews Gold Award 2006, 2007, 2008*

**KidsWatch™** is much more than the best-rated time management solution. It is preloaded with many optional benefits and features that improve the security and the quality of the Internet your children see. Installing KidsWatch™ on your computer is customising the Internet, by child, the way you want your children to experience it.

### **KidsWatch™ Web Filtering Edition US\$45.95 (This price allows for the installation on 3 computers)**

#### **Monitor Internet Chat Sessions.**

- *View Chat and Instant Messenger conversations.*
- *Receive e-mail alerts when your child types suspect keywords or phrases.*
- *Be notified when children type their name and home address.*
- *Add your own security keywords.*

#### **Superior Internet Safety.**

- *Prevent access to dangerous sites, and chat rooms.*
- *Prevent unwanted solicitations from strangers and Internet predators.*
- *Filter from over 60 categories (adult, criminal, drugs, etc) sections of the Internet*
- *Set up automatic "locked-out" websites.*
- *Automatically blocks access to web sites based on Internet keyword searches.*
